

## **NHGFOA Cooperative Purchasing and Procurement Committee**

In recognition of the generally limited resources and staff dedicated to municipal purchasing across our state, the Cooperative Purchasing and Procurement Committee of the New Hampshire Government Finance Officers Association provides opportunities for municipal employees involved with purchasing issues to cooperate to attain greater efficiencies and economy. Additionally, this committee will provide to the NHGFOA membership timely information on topics and issues common to us all, including, but not limited to: bids and RFP's, best practices, sample Purchasing ordinances, and emerging trends in public purchasing.
